

Factory Form Right Angle

Unique Permanent Right Angle Design

The Factory Form Right Angle design will extend the life of your cable assemblies without sacrificing electrical performance. MegaPhase designed the Factory Form Right Angle as a replacement for right-angled connectors and test adapters. The unique permanent curved flexure minimizes electrical reflection and loss found in right-angled connectors and adapters. It provides the necessary space needed for cable mate/de-mate processes.

This design option is available on most MegaPhase Test and Measurement and RF Cables.
